# GCP Training on *your* time!

## Interactive

The program design allows you to receive individual feedback and consistent access to helpful resources as you progress through the sessions.

Regxia has drawn on their knowledge of international policy and clinical research to develop Learn@Regxia, a dynamic and interactive online training solution.

Unlike traditional online training webinars, Learn@Regxia strives to provide high learner interactivity with thought-provoking checkpoints that help create a stimulating learning experience.

## Innovative Approach

The educational elements of Learn@Regxia were developed utilizing holistic teaching techniques to create an enduring understanding of the course content.

## GCP Certificate Program

Documented evidence that you have successfully completed all the learning objectives and gained a comprehensive understanding of the principles of GCP.

## Duration

It depends on the individual, but most students take 20 to 60 minutes to complete each training session.

## Who Should Take It?

Anyone involved with a clinical trial, including physicians, nurses, students, staff and administrators.

Custom pricing solutions to fit *your* staff on *your* budget.
